Week 1 Git and GitHub Assignment

Assignment Steps:

1. The link below has a zipped file that contains an empty directory (folder) for your assignments. Download the file to your computer and unzip it. This directory (folder) may be utilized to organize projects for this course. The root directory is called **BE-Promineo-Tech**, and inside there are 18 directories, one for each of the 18 weeks of this Backend Bootcamp.

2. Create a video of you doing the following steps (Refer to **Create a video showcasing your work** section above)
   a. Following the Git/GitHub tutorial in your week 0 video:
      1) Create a directory (folder) for your week 1 assignment.
      2) Create a repository on the GitHub website.
      3) Push your directory of files to GitHub as instructed in the video.
      4) After your first push, please ensure that you make some changes to your directory (folder), such as adding a new file or changing your code. Push those changes to your repository a second time (as shown in the video).
